PROJECTS

FOODCAVE — *Website for my college canteen.*

A website that can save the time of waiting a long time. It reduces the human waiting time and allows them to enjoy their favorite food in time when they wish to eat.

CSI TechConnect — *Website for my college for CSI members .*

A website that is used to reduce the work of Higher officials which can reduce the human effect of posting and selecting the members to the event originator, the upcoming events and the members who are interested to participate and win the gift.
